OPPORTUNITY: YOUR INVESTMENT CAN CREATE COMMUNITIES WHERE EVERY CHILD HAS A SOLID EDUCATIONAL FOUNDATION THAT PREPARES THEM FOR SUCCESS IN THE GLOBAL ECONOMY.

1 in 3

children are not reading proficiently by the 4th grade.

82%

of them are from low-income families.

1.2 million

students drop out of high school each year in the US.

That's an average of

7,000

students a day!

A strong education is necessary to set children on a path to successful and self-sufficient futures. A child's learning success is greatly affected by their support system. We invest in the family and support parents as advocates for their child's success in school.

Learning starts at birth, and we provide a strong birth to five continuum that helps families to get children off to the best possible start. High quality learning activities, nutritious meals, regular exercise, and connections to medical care help to ensure children are ready to be successful in kindergarten.

**SUPPORT
CHILDREN IN
A BIRTH TO
COLLEGE AND
CAREER PATH.**

MENTORS MAKE A DIFFERENCE

Your investment in mentoring can support and encourage a child to stay on track in school, make safe and healthy decisions, and develop a plan for long-term success.

Every child deserves a quality education and the best possible chance for long term success in school and in life. When children get off to the best possible start in school and receive support every step along the way, their chances for high school graduation and a college and career path increases dramatically. That's why investment in early learning and strong supports for youth of all ages are critical to building strong and self-sufficient communities.

Your investment can support a birth to career path for children regardless of their socioeconomic background.

OPPORTUNITY: TOGETHER WE CAN BUILD AND ENHANCE PROGRAMS THAT HELP PEOPLE BATTLING ADDICTION OR DEALING WITH THE TRAUMA OF HOMELESSNESS, ABUSE, VIOLENCE OR GRIEF AND LOSS.

Center For Family Services helps people pick up the pieces and put them back together. With a great deal of humility and compassion, our highly trained staff, help people to heal and envision a healthy future for themselves and their families.

47%

of young people use an illegal drug by the time they graduate high school.

1 in 6

women and 1 in 33 men are victims of rape every year.

10 million

children are exposed to domestic violence every year.

26%

of all children in the US witness or experience a traumatic event before the age of four.

People who experience trauma are

15x

more likely to attempt suicide, and three times more likely to experience depression.

“Before I came to Center For Family Services, I felt I was no good. I believed I deserved the abuse I suffered and that I would never amount to anything. With the help I received, I feel good about life and hopeful about the future.”

A sudden illness, depression, drug addiction, suicide, sexual violence, domestic violence, and all forms of trauma are all too prevalent in our society. The long term effects can be unimaginable and can have an ever lasting impact if not provided with the necessary tools to recover and to heal.

Our highly trained and compassionate staff provide counseling and support in a comforting home-like environment, designed to make people feel safe. We help people to overcome the trauma they experienced and not allow it to define their future.

YOU CAN BE THE DIFFERENCE.

You can make it possible for children and families who have experienced trauma to heal and build a safe and healthy future for themselves.

You can be the reason someone finds support and healing.
